EXPERIENCE

- **Junior .NET Developer Trainee** | Coders Software and Training Academy | Amman, Jordan | *SEP 2024 – Jan 2025*.
 - Developed a web application using **ASP.NET MVC/Core** and **C#**.
 - Implemented Entity Framework for **database management**.
 - Worked on RESTful **API integration**.
 - Designed and developed RESTful APIs using **ASP.NET Core Web API**.
 - Tested API endpoints using **Postman** and integration tests.
- **Flutter Developer** | **Talal Abu-Ghazaleh Organization** | Amman, Jordan | *Jul 2024 – Sep2024*
 - Built a **cross-platform mobile application** using **Flutter & Dart**.
 - Integrated **Firestore** for authentication and real-time database.
 - Consumed **RESTful APIs** for data fetching and processing.
 - Optimized app performance and ensured smooth UI/UX.

PROJECTS

- **Final Research Project – Blood Line** | **University of Philadelphia** | Amman, Jordan | *Mar 2024 – Feb 2025*.
 - Identified inefficiencies in the traditional blood donation process, including poor communication and scheduling issues.
 - Developed Blood Line, a platform that connects blood donors with blood banks using advanced **algorithms** to streamline the donation process.
 - Built a mobile application (**Flutter**) for donors and a desktop application for blood banks, ensuring seamless interaction and data synchronization.
 - Utilized **Agile** methodology and project management tools like **Microsoft Project** to enhance development efficiency.
 - Improved donor engagement through real-time updates, simplified appointment scheduling, and optimized blood bank operations.
 - Focused on addressing a critical question: **How can we encourage people to donate blood regularly?**.

SKILLS

- Development Tools: Visual Studio Code, NetBeans, Postman, Microsoft Office, MS SQL Server.
- Programming Languages: C#.NET, Java, C++, Python
- Web Technologies: HTML, CSS, JavaScript, jQuery, JSON, Bootstrap
- Software Development: RESTful APIs, Full-Stack Development, Software Design Patterns.
- Languages: English, Arabic.

EDUCATION

Bachelor of Software Engineering | **University of Philadelphia** | Amman, Jordan | *Oct 2021 – Jan 2025*.
